Claims 1, 2, 9, & 10 are rejected under 35
U.S.C. 102(b) as being anticipated by Kaufman 5,934,551.

Kaufman shows a container, including four internal compartments, separated by a divider 79. Windows 94 are provided for viewing the contents of respective compartments. Kaufman shows toy items 98 held in each compartment. However, it appears that the container would be capable of holding a wide variety of items, including a specimen vial; the claim that the container is for holding a specimen vial does not define structure beyond that shown by Kaufman.

Claim 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 3-8 & 11 are allowed.
